

1-Year HOPE Future Projects Education

From February 2026 to February 2027

INSTRUCTOR: RANDI GREEN - THE HOPE FUTURE PROJECT

Program Duration: February 2026 – February 2027 (excluding July)

Meeting Frequency: 10 Monthly Online Meetup from February to December 2026

Future Project Blueprint Assignment Deadline: January 31st 2027

The 1-Year Online Future Projects Education is structured to guide participants through the conceptualization, development, and refinement of future-oriented projects. Each meetup builds upon the previous, ensuring a logical progression from visionary ideation to structured implementation.

The education balances theory, critical insights, and ideas for project development, culminating in a final presentation of each participant's Future Project Blueprint.

From 7:00 PM – 9:00 PM (Danish Time) on the following 10 Saturdays

1. Saturday February 7th 2026
 2. Saturday March 14th 2026
 3. Saturday April 11th 2026
 4. Saturday May 9th 2026
 5. Saturday June 6th 2026
 6. Saturday August 22nd 2026
 7. Saturday September 19th 2026
 8. Saturday October 17th 2026
 9. Saturday November 14th 2026
 10. Saturday December 12th 2026
-

Session Schedule: Live Online Classes

Join for an engaging and structured learning experience designed to maximize focus and interaction while working within session time limits.

Time: 7:00 PM – 9:00 PM (Danish Time)

Where: Online (Google Meet / Microsoft Teams)

Session Breakdown

7:00 PM – 7:45 PM | Lecture & Q&A (link 1)

- In-depth lecture on the topic of the day
- Open Q&A for clarifications and discussions

7:45 PM – 8:15 PM | Break (30 minutes)

- Time to stretch, grab a drink, and reflect on key points
- Optional: Use this time to prepare for the practical exercises

8:15 PM – 8:45 PM | Practical Exercises (link 2)

- Hands-on activities to apply the concepts learned
- Group discussions and guided practice

8:45 PM – 9:00 PM | Summary & Wrap-Up

- Key takeaways from the session
 - Final thoughts and next steps
-

Session Access and Text Material

Each session will have a unique meeting link (link 1&2). Please check your email before class for the latest access details and the text material. Will be sent to you the last 2 weeks before the meetup.

Curriculum Overview

The online meetup aims to generate new insights and learning processes. You do not need an account for the chosen online solution - you can join as a guest user. Links for the individual meetups will be provided and sent to you at the latest 2 weeks before the meetup.

Text material (PDF) will be sent via email 2 weeks before the upcoming meetup.

The first section contains a lecture on the topics of the day, followed by group exercises to generate new reality sequences and adaptation of new holographic-energetic programs.

February 7th – Foundations of Future Projects

- Introduction to higher-order thinking and visionary project design
- Understanding systemic transformation vs. gradual change
- Identifying global and local challenges as catalysts for innovations

March 14th – Future Systems & Structural Change

- Organic vs. mechanistic models of growth
- Blueprinting alternative governance, economic, and social models
- Exploring self-sustaining ecosystems and regenerative systems

April 11th – The Role of Energetics & Consciousness in System Design

- Consciousness as a structural component of reality
- Matter-based vs. energetic-holographic perspectives
- Perception, belief systems, and their impact on future structures

May 9th – Deconstructing Limitations & Overcoming Systemic Constraints

- Identifying outdated paradigms in economics, politics, and technology
- Breaking free from imposed structures and limitations
- Designing open-source and decentralized alternatives

June 6th – Sustainable Living & Regenerative Design

- The integration of energetic-conscious principles in future projects
- New future economies and post-capitalist frameworks
- Building open transformation communities for long-term stability

July – No Session (Holiday Break)

August 22nd – Innovation & Higher-Order Awareness in Problem-Solving

- Generating new thought structures and meta-systemic solutions
- Ethics of future development and technological implementation
- Strategic foresight and pattern recognition in project design

September 19th – Global Network & Collaborative Intelligence

- The importance of open knowledge-sharing
- Establishing cross-cultural innovation and decentralized hubs
- Utilizing collective progression models for systemic evolution

October 17th – Leadership & Facilitation for Future Project Developers

- Progressive leadership and new facilitation models
- The role of visionaries in shaping future societies
- Balancing individual innovation with collective transformation

November 14th – Project Refinement & Finalization

- Structuring and refining Future Project Blueprints
- Developing implementation strategies for real-world impact
- The short presentation in the last meetup - what is expected

December 12th – Final Project Presentations & Conclusion

- Presentation of Future Project Blueprints (short verbal presentation)
- Feedback and discussion on viability, scalability, and adaptation
- Closing reflections on personal and collective transformation

Future Project Blueprint Assignment Deadline: January 31st 2027

Deadline for the written presentation of the Future Project Blueprint is January 31st 2027. I must receive it via email on this day at the latest.

This white paper counts as an examination, if approved, after which a certification will be sent to you on email.

Price per month over 10 months 125 EUR - in total 1250 EUR.

- The signup fee covers the first monthly payment in February.
- The remaining 9 payments of 125 EUR each will be paid via a subscription link (PayPal).
- The subscription link will be provided in the welcome email.
- Please subscribe no later than on March 1st 2026.
- You only attend for the months you have paid for, that is if you choose to cancel your subscription, you can no longer attend the monthly meetups.

Cancellation of Subscription and Unenrolling

You can cancel your subscription via PayPal at the end of any month, i.e., before the next payment cycle.

This online education is for those who seek to design the future rather than merely adapt to it, creating new paradigms and systemic solutions for a more advanced planetary civilisation.
